SETTLEMENT. Any deed whereby any definite sum, or stock, or security is settled or agreed to be settled in any manner: for every £100 or part of £100, 5s.

INVESTMENTS AND INTEREST.
 To find the price at which £100 stock (bearing a definite interest) must be bought to yield a given amount of interest, multiply the price of the stock by the figures representing the interest it bears, and divide by those representing the interest desired, thus:—
 Find selling price of £100 stock bearing 5% to yield 3 1/2%.
 £100 0 0
 5
 3 1/2 % 500 0 0
 142 17 1 1/2

To find what interest a stock (bearing definite interest) will show if bought at a certain price, multiply the nominal price of the stock by the interest it bears and divide by the price given for it, thus:
 What interest will a £100 stock bearing interest at 3% show if bought at (a) £110, (b) £90?
 £100 0 0 £100 0 0
 3 3
 110) 300 0 0 90) 300 0 0
 2 14 6 1/2 3 6 8

TABLE OF DISCOUNTS.
 14% equals 3d. in £1 or 3/4th of principal
 24% „ 6d. „ 3/4th „
 32% „ 9d. „ 3/4th „
 5% „ 1/- „ 3/4th „
 7 1/2% „ 1/6 „ 3/4th „
 10% „ 2/- „ 3/4th „

The following rule will be found very simple and quick for Calculation of Percentages.
 For instance, what is 3% on £65?
 First, multiply the amount (65) by double the percentage (3x2=6)
 65
 6
 —390
 Then divide the number arrived at into two parts by drawing a line between the last two figures, thus, 39/0. The figures to the left of the line are the number of shillings, and the one on the right the number of pence, so that the answer is 39/-.

Where the last figure is not a cypher, it will be necessary to add to it one-fifth of its value, as shown in the following:
 What is 3% on £66?
 Proceed as before, viz.,
 66
 6
 —396
 Then add one-fifth of the pence column to the number .. 39/6
 One-fifth of 6 .. 1 1/2
 —397 1/2

CALCULATION OF INTEREST.
 You lend a man £93 at 5% for 21 days. What interest are you entitled to?
 5%—1/- in the £1 (12 pence in the £1); 12 pence for 12 months equals one penny per month; three weeks equals three-fourths of a month. You are entitled to 93/- (one shilling in the £1) for a full year, or 93 pence for a month; therefore, 1/3 of 93 pence will give the answer (69 1/2). This method is only approximately correct, as three weeks is not exactly three-fourths of a month.

To ascertain more accurately the amount due on a given sum for a definite number of days at a stated interest, say £75 for 73 days at 5%, first find the amount due on the sum for 12 months by multiplying the amount by the rate of interest and dividing by 100, e.g.:—
 £75 0 0
 5
 100) £375 0 0
 3 15 0

Having found the amount due for 12 months, multiply by the number of days in question and divide by 365, e.g.:
 £3 15 0
 73
 365) 273 15 0
 0 15 0

Find the interest on £90 at 2 1/2% for 7 months. 2 1/2% equals 6d. in the £1, 3/4d. equals interest for 7 months on £1, therefore 3 1/4 x 90 = 315d. or 26/3.

GOVERNMENT PUBLICATIONS.

 Publications of the Ordnance Survey and of the Geological Survey may be purchased from the Director General of the Ordnance Survey, Southampton; or from Agents and Booksellers.

ESTIMATING PROFITS.
 It is generally agreed that mistakes are likely to arise unless profit is based on the "returns." It is quite a debatable point on some lines, such as selling of stocks and shares as to whether the percentage of profit should be calculated from cost or selling price, but for tradesmen there should be only one rule, and that is, all profit should be calculated on returns.
 For instance, say goods are bought for £75 and sold for £100. Of this, £25 (or 25%) is profit, and could be banked, leaving the outlay or principal (£75) intact. But if one considered that a profit of 33 1/3% had been made, and were £33 6s. 8d. banked, the principal would be reduced to £66 13s. 4d. When calculating the rate of profit, the principal must remain intact. In some trades it is the custom to calculate profit on the cost price. In many other trades it is the custom to calculate profit on the selling price, and when such a question arises it should be made very clear as to whether calculation is based "on cost," or "on returns."

The following is an easy method of calculating profits:—
 1/2 added to the cost price will give—
 50% on cost or 33 1/3% on returns
 1/3d .. 33 1/3% .. 25% ..
 1/4th .. 25% .. 20% ..
 1/5th .. 20% .. 16 2/3% ..
 1/6th .. 16 2/3% .. 14 2/3% ..
 1/7th .. 14 2/3% .. 12 1/2% ..
 1/8th .. 12 1/2% .. 11 1/4% ..
 1/9th .. 11 1/4% .. 10% ..

The above remarks apply more directly to the retailing of goods than to property, shares, etc.

POSTAL AND SAVINGS BANK REGULATIONS.

RATES IN FORCE, JULY, 1931.

Books containing ten 1½d., six 1d., and six ½d. stamps. Price 2/-

LETTER POST.

The prepaid rate of postage is as follows :

2-oz. in weight 1½d.
Each additional 2-oz. or fraction ½d.

A letter posted unpaid is chargeable on delivery with double postage; a letter insufficiently paid, with double the deficiency. No letter may exceed two feet in length, one foot in width, or one foot in depth. Weight unlimited.

LETTERS TO H.M. SHIPS IN HOME WATERS.

2-oz. in weight 1½d.
Each additional 2-oz., or fraction ½d.

REGISTRATION.

Any letter, parcel, or other postal packet may be registered. The minimum fee is 3d., in addition to the postage. Registered correspondence, on being redirected, may not be dropped into a letter box, but must be taken to a Post Office to be dealt with as registered.

CERTIFICATES OF POSTING CORRESPONDENCE.

Any person who desires proof that unregistered correspondence has been posted should hand in the correspondence at a Post Office, and ask for a certificate of posting. The fee is one halfpenny payable by a stamp which must be affixed by the sender to the form of certificate.

POST-CARDS.

The prepaid rate of postage on every post-card is 1d., and on every reply post-card 2d. A post-card posted unpaid is chargeable on delivery with double postage; if posted underpaid, with double the deficiency.

Picture Post-cards containing not more than five complimentary words may be sent for ½d.

Cards used as post-cards must be made of ordinary card-board, not thinner than the material used for the thinnest official post-card. They may not exceed 5¾ inches in length, by 4¼ inches in width, or be less than 4 inches in length by 2¾ inches in width.

A gummed label (not to exceed 2 inches long and ¾-inch wide) bearing the name and address of the sender may be affixed to the card. If any of the rules relating to a post-card be infringed, the card will be treated as a letter.

INLAND PRINTED PAPER POST.

This rate may be used for forwarding books, written or printed matter not in the nature of a letter, sketches, photographs, maps, certificates, estimates, deeds, circulars, Christmas cards, etc. ½d. for each 2-oz. up to 2-lb. (limit).

Size Limits, 2-ft. by 1-ft. by 1-ft.

Packets must be open to inspection.

INLAND SAMPLE PACKET POST.

Rate abolished. Samples liable to letter or parcel rate.

INLAND NEWSPAPERS.

Not exceeding 6-oz., 1d., with ½d. for every additional 6-oz. or fraction of 6-oz. This applies to single copies only. Two or more copies are liable to the same postage as if posted separately, but are not chargeable at a higher rate than that for Printed Paper of the same weight. Limit of weight for each packet, 2-lb.

LETTER CARDS.

Bearing 1½d. stamp—1 for 2d.; 6 for 11d.; 10 for 1/6.

BLIND LITERATURE (INLAND).

Up to 2-lb. ½d.; 5-lb. 1d.; 6½-lb. 1½d.

PARCEL POST.

The rates of postage on a parcel are as follows :	s.	d.
For a parcel not exceeding 2-lb.	0	6
„ exceeding 2-lb. but 5-lb.	0	9
„ „ 5-lb. „ 8-lb.	1	0
„ „ 8-lb. „ 11-lb.	1	3

No parcel may exceed 11-lb. in weight.

The size allowed for an inland parcel is :

Greatest length 3-ft. 6-in.
Greatest length and girth combined 6-ft. 0-in.

For example—A parcel measuring 3-ft. 6-in. in its longest dimensions may measure as much as 2-ft. 6-in. round its thickest part; or a short parcel may be thicker: thus, if it measure no more than 3-ft. in length, it may measure as much as 3-ft. round its thickest part.

The postage on a parcel must be prepaid. Mark each parcel "Parcel Post." A parcel must not be posted in a letter box, but presented at the counter of a post office, and the sender should see that the weight, size and postage are in order before leaving.

RE-DIRECTION OF PARCELS.

Parcels are, when re-directed, liable to additional postage at the prepaid rate for each re-direction, except where the original and the second address are either served from the same delivery office or are within the same town delivery area, and the re-direction is made within the period of free re-direction allowed for letters. A parcel will not, however, be delivered free of charge to a person who has previously refused to accept it, and for re-direction from a Returned Letter Office a second postage is invariably charged.

PARCELS (IMPERIAL AND FOREIGN).

Parcels are accepted for parcel post to most foreign countries under conditions similar to the inland regulations except that for customs requirements the contents must be declared. The customs charges of certain countries can be prepaid by sender on depositing one-fifth to one-third of declared value, otherwise they are collected from addressee. The postage varies to different countries and must be prepaid. Insurance fee is 5d. for first £12, 2d. for each additional £12, up to 5/11 for £400.

MONEY ORDERS (INLAND).

The postal authorities cannot issue a single money order for more than £40, and will only cash them at the money order office at which they are made payable, unless they are crossed, when they can be paid through a bank. No fractional part of a 1d. can be contained in a money order.

MONEY ORDERS (INLAND, IMPERIAL AND FOREIGN).

Inland Ordinary Money Orders :—

For sums not over	£3	£10	£20	£30	£40
the charge is	4d.	6d.	8d.	10d.	1/-

Inland Telegraph Money Orders :—

Before parting with a postal order, always fill in the name of the person to whom the amount is to be paid. Each order is numbered, as is also the counterfoil attached, which latter should be retained and name of payee filled in. The Postmaster-General will entertain no further claim after an order is once paid. Stamps to the amount of 5d., and not exceeding two or three in number may be affixed to make up odd sums.

POST OFFICE SAVINGS BANK.

In every town and in almost every village throughout the United Kingdom small savings may be paid in at the Post Office. A depositor may have more than one account. Amounts placed in the bank on behalf of children under seven years of age cannot be withdrawn until the child reaches that age, and then only under his or her own signature. Each depositor receives a bank book in which the amount of each deposit should be entered at the time of paying in. Any sum from a shilling upwards may be deposited. If the deposit is £50 or over, a special acknowledgment is sent from the head London office. Interest is allowed at the rate of 2½ per cent. Any amount not exceeding £3 may be withdrawn without previous notice, on presenting the bank book. The bank book should be sent each year, postage free, on the anniversary of the date when the account was opened, to the Controller of the Savings Bank Department for purposes of checking and adding interest. The withdrawal of money up to £10 can be expedited by telegraphing, the depositor paying cost of telegrams and a service charge of one shilling.

COMMUNICATION BY WIRELESS TELEGRAPHY WITH SHIPS AT SEA.

Private radio-telegrams for transmission to or from ships of most nationalities, including British, through coast stations in the United Kingdom, are usually charged 11d. per word. There are special long-distance services with certain ocean liners through the Portishead station at a total charge of 11d. per word, and through the Government high power station at Rugby (range worldwide), inclusive charge 1s. 6d. a word.

INSURED BOX POST.

Articles of gold and silver, precious stones, jewellery, and other articles of a similar nature, which are prohibited from transmission in insured letters may now be sent in the letter mails to certain countries as "Insured Boxes." Certain articles are prohibited, such as current coin, letters or correspondence, bank notes, bearer securities, etc. An insured box must not exceed 2-lb. in weight, and must not measure more than 12 inches in length, 8 inches in breadth, and 4 inches in depth. The boxes must be strongly made of metal or wood. The postage is 2d. for 2-oz. with minimum of 10d. The maximum limit of insurance is £400. There are special directions for packing and labelling. Customs declarations must be filled in.

½d. for every 2-oz. (min. 1d.)	8-lb. 2d. and 11-lb. 2½d.

TELEGRAPHS.

The Postmaster-General's telegraphs are open to the public for communication to all parts of Great Britain and Ireland, to places abroad, and to ships at sea.

The charge for an "Inland" telegram is independent of distance, and depends upon the number of words only.

The Imperial and Foreign telegraph system and the Radio-telegraphic system are largely regulated by International Conventions, to which nearly all countries are parties.

Telegraph offices are usually open on week-days from 8 a.m. to 7.30 or 8 p.m., but in London and a few of the largest provincial towns, the Head Office is always open, day and night, and in many towns telegrams may be despatched at any hour from the railway station.

INLAND TELEGRAMS.

The charge is 1/- for the first twelve words including the address, and 1d. for every additional word. Telegrams handed in on Sundays, Good Friday, and Christmas Day charged 6d. extra. In Scotland 6d. extra on Sundays only.

Telegrams can be repeated on payment of half the original charge. If the receiver of a telegram doubts its accuracy, he may have the whole or any part of it repeated without charge, so long as the original telegram is on hand at the office of origin. Telegrams may be posted in wall or pillar boxes, or handed to rural postmen, and are wired as soon as received at the nearest telegraph office. Late fees secure attention, in certain cases, to telegrams handed in after the usual hours. The cost of registering an abbreviated address, which must consist of two words, is £2 a year.

Telegrams in plain language in any modern European tongue or in Latin or in Esperanto are charged for according to the number of words; but all words not forming part of any modern European language, or of Latin, or of Esperanto, and all unintelligible combinations of letters are charged for at the rate of five letters to a word in the text, and as one word each when used in the address.

Exceptions—Words which are ordinarily written as one, or coupled by hyphens, as "mother-in-law," "forty-seven," "warehouseman," are counted as one word.

Such names as O'Neil, MacDonald, De la Rue, and names with the prefix "St." as St. Pancras, are charged for as single words, but double names like Bouverie-Tracy, although written with a hyphen, count as two words.

Such abbreviations as "can't," "won't," "couldn't," are counted as single words.

Figures are counted at the rate of five figures to a word. For example: "38563" counts as one word, while "385634" counts as two words.

Names such as "Newcastle-on-Tyne," "Abbey-Holme" and "Bodmin Road," are counted as one word, but "Hanging Ditch" and "Drury Lane" are each counted as two words.

When it is necessary to add the name of a county to the name of a place to distinguish it from another place of the same name, *e.g.*, Egremont (Ches.), the name of the county is not charged for.

When words are underlined, or placed in parentheses, or within inverted commas, one extra word is charged for.

One word each is also charged for the ordinary signs of punctuation if they are required to be transmitted.

When the address is beyond the limit of free delivery, portage is charged at the rate of 6d. per mile or part of a mile, the distance being calculated from the limit of free delivery.

MIXED POSTAL AND TELEGRAPH SERVICE.

A telegram can now be forwarded partly by telegraph and partly by post. For example:—"Poste Smith, 10 Broad Street, Calcutta, Marseilles." This could be telegraphed to Marseilles to catch the outgoing mail, and then forwarded on by post to its destination. For charges, enquire at any Telegraph Office.

Telegrams may also be sent to the despatching offices at Dover, Lewes, Liverpool, London (foreign section), Newcastle-on-Tyne and Southampton for onward transmission as letters in the outgoing mails.

MOTOR INDEX MARKS—continued.

Continuation of motor index marks table, listing regions like Yorkshire, Lancashire, Derbyshire, etc.

THE READY RECKONER.

Table for currency conversion and calculations, with columns for various denominations and units.

BANK OF ENGLAND NOTES.

These are issued for 10s., £1, £5, £10, £20, £50, £100, £500 and £1,000. Bank of England Notes of 10s. and £1 are legal tender in Great Britain and Northern Ireland for the payment of any amount.

GOLD.

Gold, if of or, above the least current weight, is legal tender to any amount. Standard Gold contains twenty-two twenty-fourths (carats) of fine gold and two twenty-fourths of alloy.

SILVER AND BRONZE.

STANDARD SILVER formerly contained thirty-seven fortieths of fine silver and three fortieths of alloy: millesimal fineness, 925. But by an amending Act (Coinage Act, 1920) silver for coinage now contains half silver, half alloy: millesimal fineness, 500.

CHANGE.

Change cannot be demanded except from the Bank of England.

ALWAYS OPEN DAY & NIGHT

Realising that many occasions arise when, as a result of accident or sudden illness, medicines and appliances are needed urgently, Boots The Chemists inaugurated a service which meets every requirement. Establishments in certain large centres are specially staffed and adapted to remain open "Day and Night" and so be in a position to satisfy every demand.

There is no additional charge for this service, uniform prices ruling at all times.

These special services have been much appreciated by the Medical and Nursing Professions, the Hospitals and the public, and are in operation at the following towns:—

24 HOURS FULL SERVICE

“PROGRESS BUILT ON SERVICE”

“CHEMISTS TO THE NATION”—apt slogan which epitomizes the position which Boots The Chemists occupy today, a position which has been achieved by intelligent application of the needs of an ever-growing public and by placing at their command a service which aims at meeting every need. Boots The Chemists are well qualified to do this—operating as they do over nine hundred branches throughout the country and employing over 1,400 qualified Chemists and more than 160 fully trained Nurses to give expert and careful attention to every demand.

GROWTH AND DEVELOPMENT.

The growth of Boots The Chemists has been the result of very careful and far seeing policy. It is nearly fifty years since the first shop to bear the name ‘Boots’ was opened in Nottingham. Here, in what is now a street off the main thoroughfares, Jesse Boot commenced a business which he intended should supply Drugs, Herbs, Patent Medicines, etc., at reduced prices. In those days, the public often had to pay very dearly for their requirements in this direction and the founder of the business which has now attained world-wide repute was not slow to take advantage of this. He was the first to advocate and practise the policy that quick turnover with a small margin of profit is to be preferred to a slow turnover and apparent larger profit. With that as a principle, his establishment became well-known as the shop where medicines and certain household requisites could be procured at much cheaper prices than elsewhere.

COMPANY FORMATION. EXPANSION.

It was not surprising, then, that his modest incursion into business should become very successful—with the result that the existing premises could not satisfactorily deal with the volume of business which was being done. This necessitated the opening of branch premises—and thus the real foundation of Boots The Chemists was laid. The business expanded gradually and after a few years the first Company—Boots & Co. Limited—was formed.

Progress then became rapid and the Company became established in 28 towns—operating 60 shops. Public appreciation of Boots Cash Chemists—as the Company’s shops were known—led to continuous development, with the result that branch after branch was opened and most of the large towns had their Boots establishment. War years naturally checked this development, but since that period expansion has been regular with the result that Boots The Chemists now operate over nine hundred branches throughout the country.

THE COMPOSITE SHOP.

With the development of the chemist side of the business, and the serving of an increasing number of customers, came the opportunity of adding new sections—and soon new departments were made. Picture Framing was one of the first to receive attention—then came the development of the Art side of the business. Fancy and Leather Goods—Silver—Tableware—Books—Photographic supplies—Stationery—all these were included in the larger stores and Boots soon came to be well-known for Drugs and Gifts.

SAFEGUARDING.

While these extensive additions were being made to the branches, the production and warehousing side of the business was receiving particular attention. Factories and Works were built and equipped in the best possible manner in order that Drugs and Medicines could be provided in the large quantities which were necessary to supply the increasing number of branches. Even in the old days certain Legislative Acts made it imperative that all Drugs should conform to certain standards—and as long as these standards were attained everything was quite in order. This did not satisfy Boots The Chemists, with the result that Analytical Laboratories were equipped in the heart of the factories and they had to be satisfied that all Boots Drugs and Medicines complied with, in many cases, higher standards than those officially demanded. Thus started the scheme of Analytical Control for which Boots The Chemists are famous—and now-a-days the Analytical Department impose very stringent tests which have to be passed before anything is allowed to go forward for manufacturing purposes. As a consequence, Boots The Chemists unreservedly guarantee the purity and reliability of all Drugs and Medicines of their own manufacture—knowing full well that the tests imposed during the various stages of production would have detected any impurities. The slogan “You are safe in dealing with Boots,” is, therefore, in every way justified and the millions of satisfied customers served during the course of any one year bear effective testimony to the truth of the statement.

Such is the appreciation of the public of the reliability of the products of Boots The Chemists that hundreds of tons of Drugs, millions of Pills, Tablets and Lozenges and hundreds of gallons of Medicines are distributed yearly. And when it is remembered that each unit sent out is guaranteed to be absolutely pure and 100% effective, it will be realised that Boots The Chemists have indeed become a bulwark in the interests of the Nation's health.

RESEARCH.

In addition to the actual production of Drugs and Medicines, Boots The Chemists devote considerable time to Research Chemistry—in investigating various processes of manufacture—in the production of new substances. In hundreds of ways the Research Laboratories by patient, systematic investigation endeavour to discover new methods and new treatments which help in the fight against illness and disease.

BOOTS SERVICE.

Boots service to the public is unequalled. Throughout the country, in over nine hundred branches, there are assistants always prepared to give the finest possible service—with highest quality merchandise supplied at the lowest possible prices. The provision of shops which give a ‘Day and Night Service’ is yet another instance of Boots Super Service. There are nine such establishments—situated in the larger industrial centres—and each has earned the warm appreciation of Medical Men, Hospitals, and the general public.

In this short space it is impossible to give more than a very brief account of the growth and development of Boots The Chemists—but it is enough to shew that it has been achieved by placing first the interests of our customers—by providing for them always the highest quality merchandise at the lowest possible prices and by giving them the finest possible service. A policy which Boots The Chemists will maintain.
