ITEMS TOO DEEP FOR A STANDARD CASE

A Woodbury Treasure

This Medieval gold and emerald finger ring was found in Seven Acres (the old cricket field) in April 2000. It dates to the late 13th or early 14th century. It was declared treasure trove and the Treasure Valuation Committee valued it at £2,200. It was purchased by the RAMM in Exeter where it is on display. Own item No: 1163. UKFD 13895.

A Tale of two halves
 By Nigel Tucker

The left-hand piece was found by me in October 2003, and the right-hand, matching half by John Wright on a club dig in the same field at Ebford in September 2010. It pays to persevere!
