Woodbury Salterton SCHOOL.

Date, June 2nd 1924 when supplied to the Head Teacher by
(Signature) Correspondent.

THE DURHAM
ADMISSION REGISTER (No. 1.)

REGULATIONS AS TO SCHOOL RECORDS AND REGISTRATION.

The Code requires that managers of schools shall provide suitable records—registers, log book, minute book, etc. (Schedule iv., 1); and, before any grant is made, the Education Department must be satisfied “that the admission and daily attendance of the scholars are carefully registered by or under the supervision of the principal teacher, and periodically verified by the managers; that accounts of income and expenditure are accurately kept by the managers and duly audited; and that all statistical returns and certificates of character are trustworthy.”

1. The necessary books should be bought out of school funds and be the exclusive property of the school.
2. All entries must be original, not copied from slates, papers, or memoranda of any kind. They must be made from the first in ink. Pencil entries of any kind are altogether forbidden. There must be no erasures nor insertions. If it is necessary to make any correction, this should be done in such manner that the original entry and the alteration made are both clear on the face of the record. The entries should be consecutive; no blanks should be left between them.
3. The name of the school should be distinctly written on the cover or title page of each book.
4. The pages of all registers must be numbered consecutively, no leaf must be inserted in or withdrawn from any register, and no blank spaces should be left between the entries.
5. Entries must be originals and not copies, and must be made in ink without erasure or insertion.
If it is necessary to make any correction this should be done in such a manner that the original entry and the alteration made are both clear on the face of the record.
6. Registers should be kept for 10 years after they have been filled.

Special Rules for Admission Register.

7. An entry should be made in the admission register for each child on the first day on which he attends the school or department. No name should be removed while the child is under the legal obligation to attend school, unless, either (a) it has been ascertained that he or she is dead, is attending another school, or has left the neighbourhood; or (b) the School Medical Officer has certified that in his opinion there is no likelihood of the child being in a fit state of health to attend school before becoming legally exempt from the obligation of school attendance. If no information is obtainable the name may be removed after a continuous absence of four weeks.
8. Successive numbers must be allotted to the children on their admission so that each may have his own number which he should retain throughout his career in the school or department. This number will then serve to identify him.
When any child whose name has been removed from the register is re-admitted, a new entry must be made, but the child should resume his old number, and cross reference should be made to the entries.
9. This register must show distinctly for each child who has actually been present in the school or department—
 - (a) His number on the register.
 - (b) The date of his admission (and re-admission)—day, month, and year.
 - (c) His name *in full*.
 - (d) The name and address of his parent or guardian.
 - (e) Whether exemption from religious instruction, or from attendance at the school during the time of religious instruction where the byelaws permit this, is claimed on his behalf.
 - (f) The exact date—day, month, and year of his birth.
 - (g) The last school he attended before entering this school. If this is his first school, the word “none” should be entered in this column.
 - (h) If he has left, the date of his last attendance at *this* school and the cause of his leaving.
10. This register should have an alphabetical index.

It will be found convenient to enter all re-admissions in red ink.
